## NO. 1 POLICE LAUNCH STRIKES SUBMERGED ROCK IN MIRS BAY

### FRANCE SUPPORTS BRITAIN

### NEW SANCTIONS POLICY APPROVED

### FOREIGN AFFAIRS DEBATE TO BE HELD NEXT WEDNESDAY

"CHINA MAIL" SPECIAL

Paris, To-day.

The French Government will support the British Government in demanding that sanctions be raised after the forthcoming League of Nations session in Geneva, according to a communiqué issued after the conclusion of the Cabinet Council held in the Palais des Champs d'Elysées yesterday, with President Lebrun in the chair. The communiqué declares:

"The Foreign Minister, M. Delbos, reported regarding the foreign political situation, particularly concerning the problems which are on the agenda of the forthcoming League session. Loyal to the principle of collective action, the French Government will support all decisions taken by the League of Nations."

"In view of its information regarding the present sanctions situation, the French Government believes that consideration of the actual facts must lead to the sanctions being raised. The French Government has, therefore, approved of the instructions to this effect, which will be sent to the French diplomatic representatives abroad to-day. The French Government examined the means that appear suitable for strengthening the system of collective security and decided:

### WINGS OVER AMERICA

#### Huge Increase in Air Force Authorized

Washington, To-day.—Congress has passed and sent to the White House the McSwain Bill, authorising an increase of 2,320 planes in the Army Air Force. The present authorised strength comprises 1,800 planes.—Reuter.

### SEA ADVENTURE ENDED

#### Girl Pat Towed Into Georgetown

#### CREW REMOVED TO POLICE STATION

Georgetown, To-day. The Girl Pat has tied up at the Customs wharf, and the crew has been removed to the police station.—Reuter.

An earlier message stated that the Girl Pat, the Grimsby trawler, whose master took her off for an unauthorised treasure hunt, was being towed into port by the Government motor-vessel Pomeroy, after a thrilling chase in which the fugitive displayed amazing seamanship.

### OLYMPIC GAMES

#### France Not Competing Officially

Paris, To-day. The Government has decided that France will not officially participate in the Olympic Games, but a bill will be tabled in Parliament to open credits to enable representatives of the French Sports Federation to participate.—Reuter's Bulletin Service.

#### GERMAN REPORT

Paris: France's participation in the Berlin Olympiad, which was for some time doubtful in view of the shortage of funds of the French Sports Association, is now secured, as the Government is prepared to foot the bill.—Trans-Ocean Service.

The President of the Reichsbank, Dr. Schacht, above, has denied that there is any political significance about his recent visit to South-Eastern Europe, which was only concerned with economic matters.

### ALL OPEN AND ABOVE BOARD

#### DR. SCHACHT'S TRIP TO S.E. EUROPE

#### NO POLITICAL DESIGNS

"CHINA MAIL" SPECIAL

Budapest, To-day.

Declaring that his trip to south-eastern Europe was "wholly free from any political aspirations," the President of the Reichsbank, Dr. Schacht, speaking here at a press reception yesterday, emphatically denied the imputations made by some of the foreign papers.

"It seems curious to me that every effort made by Germany to improve the international economic situation should be eyed with suspicion, as having some political motive," he said.

Recalling that Germany and other countries were involved in the tangle of debts through the Treaty of Versailles, Dr. Schacht put the question whether, if every attempt of the debtor nation to improve its and thus the creditor's position was to be eyed with suspicion, the creditor nations were at last prepared to renounce their claims.

### ALL NOT LOST IN ETHIOPIA

#### "Still A Sovereign State"

London, To-day.

The Abyssinian Legation in London has issued a statement reiterating the claim that Western Abyssinia is still under the control of the Ethiopians and is ruled by a Regent. The Legation maintains that Ethiopia is still a sovereign country.

It is added that the Emperor has received several messages from his subjects at Gore since his arrival in London.—Reuter's Bulletin Service.

Washington, To-day. Mr. William Lemke, member for North Dakota in the House of Representatives, has announced his candidacy for the Presidency as the candidate for the new "Union Party." It is widely predicted that Father Coughlin, the "Radio Priest," will support Mr. Lemke.—Reuter.

U.S. PRESIDENCY

NEW CANDIDATE IN THE FIELD

Washington, To-day. Mr. William Lemke, member for North Dakota in the House of Representatives, has announced his candidacy for the Presidency as the candidate for the new "Union Party." It is widely predicted that Father Coughlin, the "Radio Priest," will support Mr. Lemke.—Reuter.

With broader corners and a better road surface, amazing speeds were achieved by the competitors, who whizzed down the straight stretches at over 120 m.p.h. Guthrie led throughout the race, closely followed by Woods.

The winner twice established new lap records — in the second lap he reached a speed of 86.59 m.p.h.

James Guthrie, on a Norton, won in 3 hours, 4 mins. 43 seconds, averaging 85.80 miles per hour. Stanley Woods, on a Velocette, was second in 3 hours, 15 mins. 1 sec., at an average speed of 85.66 miles per hour, while the leader.—Reuter.

Firth, also on a Norton, was third, his time being 3 hours, 7 mins. 35 secs., averaging 84.49 m.p.h.

lap records — in the second lap he reached a speed of 86.59 m.p.h. and in the fifth his speed was 86.76 m.p.h. In the sixth lap, however, Woods averaged 86.98 m.p.h. and came within 22 seconds of

### FRANCE TO DEFEND HER CURRENCY

#### DEVALUATION FEARS DISPELLED

#### CAPITAL LEVY WOULD PROVE TO BE DEATHBLOW

Paris, To-day.

Devaluation was rejected by M. Vincent Auriol, Finance Minister, in a speech in the Chamber yesterday. He said that the only policy to-day was the call to the nation to save itself and its currency.

It is estimated that 26 milliards of French capital has been exported since January last year, and 36 milliards hoarded. The budget deficit for 1936 will be between six and seven milliards. Treasury commitments from June to December, 1936, are 15 milliards, against which the Government is entitled to issue 840,000,000 francs in Treasury Bills during the remainder of the year. The Bank of France has advanced the State 14 milliards.

The permanent public debt has been reduced by 44 milliards since 1932, the payable debt has increased by 75 milliards, the short-term debt has risen to 32½ milliards and the floating debt to 66 milliards.

M. Auriol yesterday tabled four Bills providing penalties for concealing funds abroad after a given period, the severe repression of any action prejudicial to the State, the reorganisation of the Bank of France, and the simplification of the public finances. Private banks are not to be nationalised, but are subject to control to prevent abuses."

He warned the Communists that a capital levy was dangerous and impossible; it would "kill" the French Treasury.

The Government would shortly issue short-term bills of small denominations, in which the man in the street could invest.

In the meantime he would ask the Bank of France for a credit and the public would be asked to subscribe to baby bonds.

### OBITUARY

#### Mrs. D. TOLLAN PASSES AT WAR MEMORIAL

#### VERY BRIEF ILLNESS

It will come as a great shock to her many friends in the Colony to learn that Mrs. D. Tollan, wife of Mr. D. Tollan, of the Hong Kong Telephone Co., Ltd., passed away at the War Memorial Nursing Home at 2:45 a.m. to-day from internal complications.

The late Mrs. Tollan was only ill for five days and her demise has robbed the Colony of one of its oldest European residents.

Mrs. Tollan leaves three daughters in the Colony, one of whom is Mrs. S. C. Clemo, while she has another married daughter at home, Mrs. C. S. Woods. Mr. and Mrs. Tollan first came out to the Colony nearly 30 years ago.

The funeral will take place this afternoon and will pass the Monumen at 5 p.m.

### SOLAR ECLIPSE ECLIPSED

#### New Star Discovered In Germany

"CHINA MAIL" SPECIAL

Berlin, To-day.

Yesterday's total solar eclipse was self-eclipsed, as far as Berlin University Observatory was concerned, by the unexpected discovery of a new star during the observations of the scheduled astronomical phenomenon. The new star is situated 1½ degrees south of the star "Epsilon," in the constellation "Cepheus," and is of third to fourth magnitude.

This is the first time that the

Berlin University Observatory has discovered a new star, and curiously enough it was reported from both stations in the observatory at Neubabelsberg and the branch at Sonnenburg practically simultaneously.—Trans-Ocean Service.

### NEW TRACK MARK

#### 400 METRES IN 46.1 SECS.

Chicago, To-day.

Archie Williams, formerly of California University, broke the world's track record for 400 Metres when he clocked 46 1/10 seconds yesterday. The previous best time was 46.2 seconds, set up by W. A. Carr, also of America, in 1932.—Reuter.

### STOP PRESS

### MOST RECENT ADDITION TO FLEET

"No. 1 Police Launch struck a submerged rock in Tak Mun, Mirs Bay, off Long Harbour, at 3.15 p.m. yesterday afternoon. I do not know the cause of the accident, but the propeller of the launch has been damaged and she is being towed in by No. 4 launch, and is due in the harbour some time this morning," said the Hon. Mr. T. H. King,

### I.R.A. DECLARED ILLEGAL

#### To-morrow's Parade Prohibited

#### FORMAL ORDER MADE

Dublin, To-day.

The Free State Government has formally declared the Irish Republican Army an illegal organisation and has prohibited the parades arranged for to-morrow.

The Government statement de-

clares that the methods and ac-

tivities of the organisation stylise

itself the Irish Republican Army

and the commission of crimes of

violence, obviously organized,

makes it necessary that it should

be made clear that the contin-

uance of this unlawful organisa-

tion will not be permitted.

The Government has, therefore decided

to make an order formally declar-

ing the organisation an unlawful

association."

The statement adds that the Government has decided to pro-

hibit the holding of the mobilisa-

tion arranged for to-morrow at

Sallins and Bodenstown, and

warns all citizens to avoid visit-

ing these neighbourhoods to-mor-

row.—Reuter.

The Hon. Mr. King added that, apart from

the damage to the pro-

peller, the launch sus-

tained no other damage,

and added that the ves-

sel is the one which had

only recently been put

into commission.

She was built locally, at Tai-

koo Dockyard, and car-

ries, in addition to other

armaments, a three-

pound gun.

### BIG FIGHT ON NO LIKELIHOOD OF POSTPONEMENT

New York, To-day.

A cable despatched yesterday from New York stated that the fight between Joe Louis and Max Schmeling, scheduled for last night, would definitely take place.

The fight was postponed from the previous night on account of rain. Both men are reported fit and each one expressed confidence of being able to win, but ringside betting showed that the Brown Bomber was a hot favourite.

The body of Sheriff William B. Young of Orange County is here seen being carried from the siege of the cabin of William Wills, Negro, at Gordonsville, Virginia. A posse of 1,000 surrounded the cabin, riddling it with bullets, and finally setting it afire, cremating Wills and his sister, Cora. Young had sought to arrest Wills for a mental examination after the Negro had threatened a white woman with a gun.

## MIXED GALA TO OPEN EUROPEAN Y.M.C.A. SWIMMING SEASON

**SIXTY-SIX HUNDREDS  
IN MAY**

**KIMPTON'S FINE BATTING**

**AMARNATH EQUALS RECORD**

Ceylon, May 30.

THE month of May is nearing its end and as far as I can make it out there have been 66 centuries obtained in this time, five by the Indian team. Amarnath has had the honour of notching three of these centuries, while Baqa Jilani, and Merchant have scored one each, writes "Onlooker" in the "Ceylon Observer." Amarnath has equalled a record for an Indian cricketer in England by scoring two centuries in one match.

Only five centuries have been recorded against the Indians by J. H. Human, A. H. Bakewell, Cutmore, Smith and Gimblett. The last named Somerset player was the first to score a century against the Indians. He has obtained three centuries so far like R. C. M. Kimpton, the young Australian at Oxford, who notched two centuries in one match against Gloucestershire.

Leyland holds the record for the highest score of the month with 263. Patsy Hendren and A. B. Sellers are the only two other batsmen who have passed the 200 mark.

### CRAIGENGOWER'S TENNIS WIN

**RADIO BEATEN AT  
THE VALLEY**

**LOCKE AND RAPLEY  
FAIL BADLY**

Craigengower Cricket Club secured their fourth victory in the "D" Division of the Lawn Tennis League yesterday when they beat one of the strongest contenders for the title, the Radio Sports Club, by 6 sets to 3.

T. Locke and W. Rapley were very weak, failing to win a set. This was the Radio's first defeat in two games, having beaten the Central British Association last week.

E. Zimmern and H. N. Chung (C.C.C.) beat W. J. Chanson and N. B. Kitchell ... 6-3 beat D. Leonard and M. Sheriff ... 6-2 beat G. Singh and Karnail Singh 6-0. A. Kitchell and A. B. Hamson (C.C.C.) beat Chanson and Kitchell ... 6-2 beat Leonard and Sheriff ... 6-3 beat G. Singh and Karnail Singh 6-4. T. Locke and W. Rapley (C.C.C.) lost to Chanson and Kitchell ... 1-6 lost to Leonard and Sheriff ... 0-6 lost to G. Singh and Karnail Singh 2-6.

### SOUTH CHINA'S EASY WIN

**Major And Smith Shine  
For Police**

South China Athletic Association gained their third victory in four games in the "D" Division of the Lawn Tennis League yesterday when they beat the Police Recreation Club by 6½ sets to 2½ at King's Park.

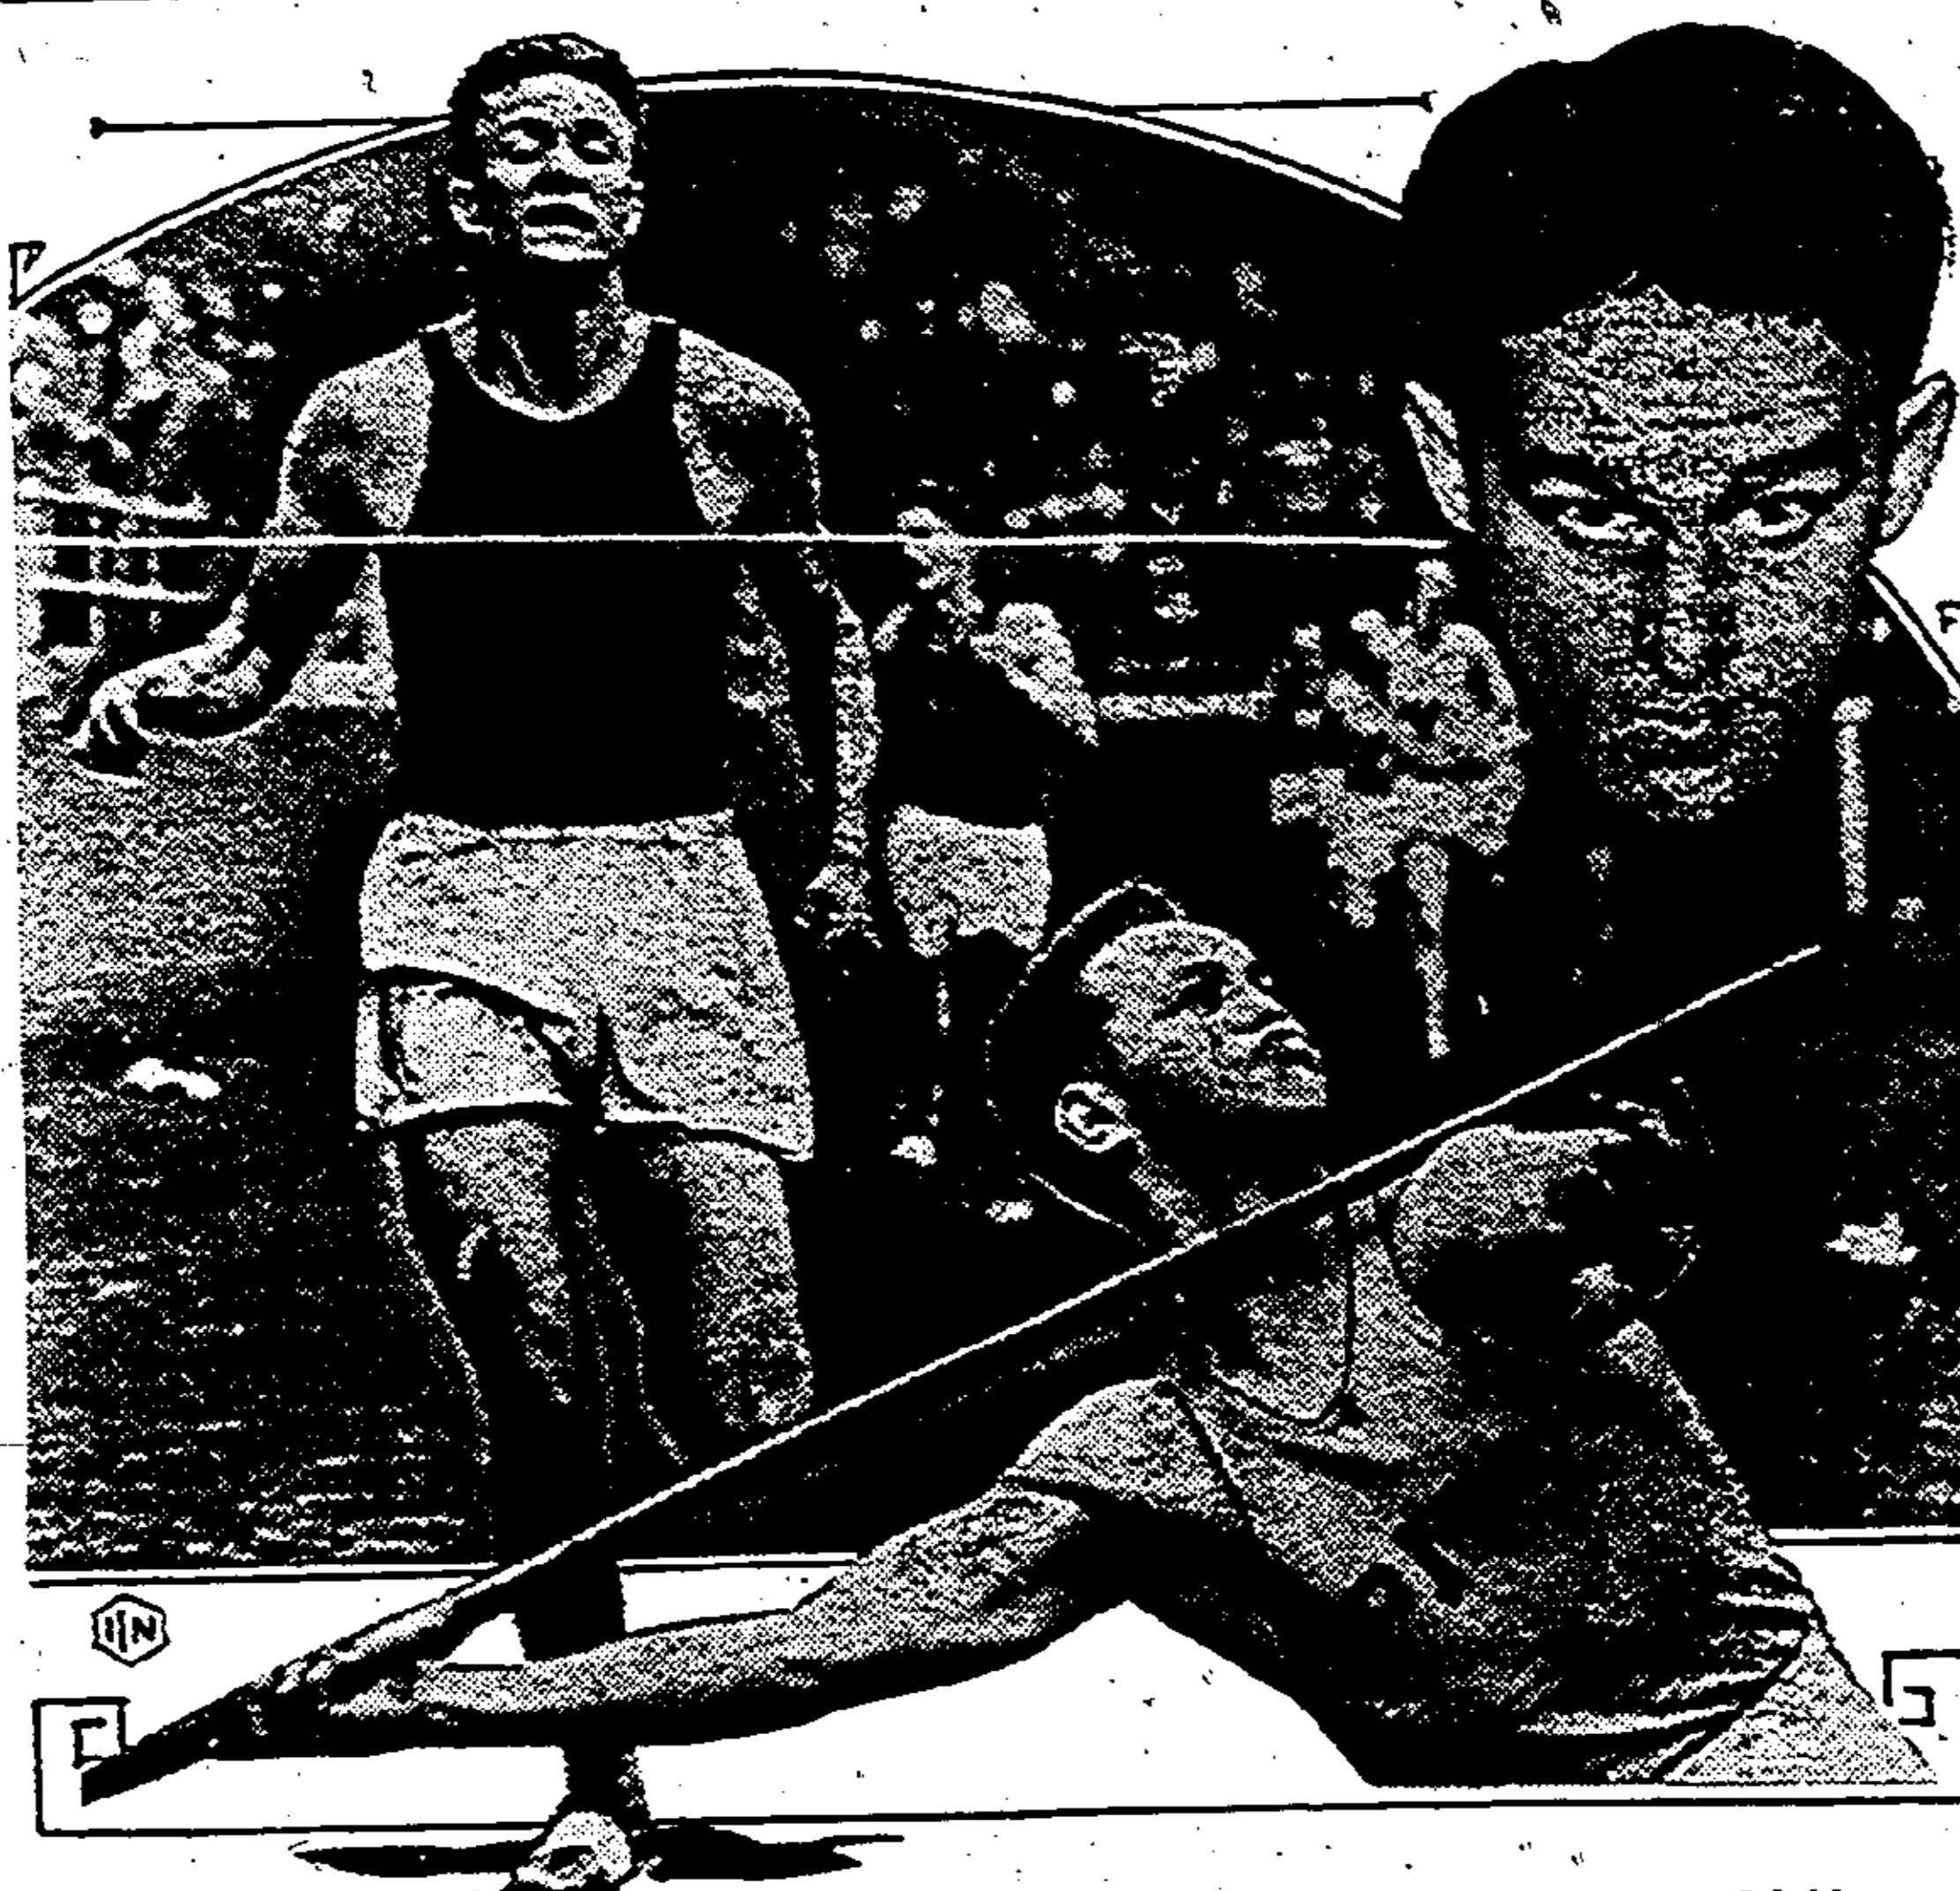

Major and Smith were the strongest of the visiting pairs, winning two and drawing the third of their three sets. A. Kwok and C. M. Tsang (S.C.A.A.) drew with A. Major and S. Smith 6-6 beat C. Parkes and C. Galvin ... 7-5 beat B. Baker and C. Pile ... 6-4 G. B. Wong and T. K. Tang (S.C.A.A.) lost to Major and Smith ... 1-6 beat Parker and Galvin ... 6-4 beat Baker and Pile ... 6-4 beat L. Kwan and J. Mok (S.C.A.A.) lost to Major and Smith ... 4-6 beat Parkes and Galvin ... 6-1 beat Baker and Pile ... 6-3.

Without Pacific Coast competition this year in the Intercollegiate A.A.A.A. at Philadelphia, an eastern college is expected to be crowned champion for the first time since 1924, when Yale crashed through. Several Olympic prospects will be seen in action. Gene Venzke, (left), star Pennsylvania miler, is outstanding in his event. Eddie O'Brien, of Syracuse, national champion over 400 Metres, faces stiff competition, while Gene Taano, of Pittsburgh, is counted on for points in the Javelin Throw.

**NOVICES' EVENTS TO NEW FEATURED**

(Continued from Page 4)

In spite of the fact that the Canadians will be without their star pitcher, Dreany, they should be able to give a good account of themselves, providing they enter the field with confidence.

Alltree may not be as good as Dreany in pitching, but he is very useful, and, if given support by the fielders, there should be no reason why their rivals' score should not be kept down.

The strongest department of the Canadian team is their batting, though they failed very badly in their last game, when least expected. Should their batters return to form there should be no scarcity of runs for, apart from Oliver and Divett, there are at least four other members of the team—Muir, Mueller, Walker and Pearce—who also have a good eye.

To-morrow's Clash

To-morrow the Americans will encounter the unbeaten Volunteer team and should have little difficulty in winning, in spite of the latter's improvement.

Eastern are hopeful of providing the surprise of the season when they meet the Japanese Y.M.A., and, in view of the changes in their team, are capable of winning.

While Eastern will have the services of a good pitcher in Billy Woo, the Japanese are still looking out for a pitcher to replace Mikuni, and it is understood that Maruyama will be given a chance, together with Amasaki. The line-up of the Japanese team is uncertain, though all the regular players are available.

**Green Advantage**

Although the Portuguese are in fine fettle at the moment, the Kowloon Cricket Club are conceded a good chance of winning against the Civil Servants to secure the "double."

The following is "Skip's" forecast:

**CRICKET NEWS FROM NEAR AND FAR**

**A**t the last meeting of the Marylebone Cricket Club held at Lord's recently, Lord Cobham, the retiring President nominated Lord Somers as his successor.

The new President of the M.C.C. was Governor of Victoria from 1926 to 1931 and Acting Governor of Australia in 1930-31.

Lord Somers, who is 49, was at Charterhouse and New College, Oxford. He played cricket for his school and for Worcestershire and was a fine rackets player. He won the Army Doubles Championship in 1908 with Major the Honourable J. J. Astor as partner. Playing for Charterhouse against Westminster in 1904 he scored 115 not out.

**WRIGHT TO THE RESCUE**

Warwickshire, led by Peter Cranmer, the Rugby international, in the absence of Wyatt, dismissed Kent in a little over four hours and a quarter for 218 at Edgbaston, and then, left with roughly 70 minutes' batting, made 79 without loss.

Right through the innings Kent were struggling for runs, and the position would have been critical if Wright, the youngest member of the side, had not come to the rescue.

Wright, whose bowling had so much to do with Kent's victory over Derbyshire, revealed that he has the making of a fine all-round player. Without taking any risk, he made many fine strokes especially in front of the wicket. He scored 53 out of a total of 218.

**CAPTAIN'S INNINGS**

**T**HE Essex opening batsmen failed badly at Lord's in their match with Middlesex, only a fine innings by their captain and some determined wagging by the tail saving their side from disaster.

Middlesex did little better, losing their first two wickets for 13 runs, and finishing the day 107 runs behind, with five wickets down.

The light was none too good when Essex went in to bat, which perhaps contributed to the early success of the Middlesex fast bowlers, Smith and Gray.

Hendren's slip catch off Smith, which dismissed Cutmore, was an acrobatic affair. Taylor and Nichols quickly followed—Hendren obliging again in the case of the former, this time off Gray.

The fall of these wickets brought the Essex captain and O'Connor together, but O'Connor soon fell to catch by Peebles of Covington at deep square leg. Nor was this all, for a few balls later, Bray presented Peebles with the easiest of catches at forward short leg off Smith, and half the side were out for 54 after 70 minutes' play.

Eastman now joined his captain, and there were no more catastrophes before lunch. Eastman should have been taken in the slips off Gray just after the interval and, profiting by this escape, he helped himself to 16 runs in the same over.

**LARWOOD STILL FAST**

**L**ARWOOD took five Gloucestershire wickets for 56 runs at Northampton, and despite his shortened run his speed baffled most of the batsmen.

In his first spell Barnett, Sinfeld and Neale fell to him in ten overs for 21. Larwood had five slips and a backward point, and although bowling for an hour before lunch he never lost his length.

Gloucestershire were all out for 183, and Notts scored 201 for the loss of Keeton and Walker.

In addition to his bowling, Larwood had a smart catch in the slips, and when Hopkins and Cranfield were making a last-wicket stand, he ran out Cranfield with a splendid return from square leg.

When Nottinghamshire went in Keeton left to a wonderful catch in the gully with only five scored, and Walker was out with the total of 39.

**BRITISH SOCCER TEAMS WIN**

Two British Soccer teams have won matches on the Continent. Chelsea beat a local side at Gothenburg by 4-0, and Huddersfield Town won their first match in Norway, defeating Lyn at Oslo by 7-2.

**Craigengower Bowler**

**A. OMAR, the Craigengower**

"B" team lawn bowler, above, was educated at St. Joseph's College and first played in competitive sport as a goalkeeper for his school in the Second Division of the Football League in 1927. He was promoted to the senior team two years later. In 1930 he led the Third Division team and was their leading goal-scorer.

He has since played for the Eastern Athletic Association and the Young Indians' Football Club. Omar commenced his lawn bowls career at the Indian Recreation Club in 1933, when he played in the Second Division. He won the I.R.C. Singles and Pairs Championships the following year.

He was a member of the Indian rink which won the Guicciardi Shield last year, later transferring to Craigengower Cricket Club.

Omar played baseball for St. Joseph's College in the Junior Division of the local League in the 1928 season as a pitcher, while among his other sporting accomplishments he is a fairly good cricketer and a sound tennis player.

**OAKS FAVOURITES FAIL IN SLOW RUN RACE**

**LOVELY ROSA A 33-1 WINNER**

London, May 30.

If the result of the Derby on Wednesday was surprising, that of the Oaks yesterday was astounding. It was won by Sir Abe Bailey's Lovely Rosa, who started at 33 to 1. She was a fairly easy winner by three parts of a length from Sir Frederick Eley's unlucky Barrowby Gem, with the King's filly, Feola, beaten by two lengths for third place.

It was an amazing race, for all the fancied fillies—Tide-Way, Silver Birch, Traffic Light and Feola—came into the straight with everything in their favour. They had had a clear run, and all of them had equal chances after rounding Tattington Corner.

Yet, one by one, they dropped back beaten, and the only one that kept up the gallop for a time was Feola. The first to crack was Tide-Way. In spite of the ground being so much against a filly with a weak joint, she was strongly supported, and finally ousted Silver Birch from favouritism.

**Silver Birch Beaten**

Then Silver Birch and Traffic Light came on disputing the lead. Silver Birch was the first of these to go, and she dropped out beaten. Below the distance Traffic Light was left in front, but she also weakened and dropped back. Then Weston, who had been nearly last of the field for most of the distance, came with a powerful run on the outside on Lovely Rosa in the last furlong and headed Feola.

She was immediately challenged by Barrowby Gem, but the challenge came too late. Barrowby Gem was going at least as strongly as the winner when they passed the judge, and Beasley considers his mount to be the unluckiest

## The "Great Betrayal"

Public opinion still counts for something in England, for which let us thank whatever gods there be; so that there is still a chance that the "Great Betrayal" which the Labour Party so castigates may not become an accomplished fact. Because there is surely not the slightest doubt that the declared British policy, if carried through, will cause the national name so to stink in the nostrils of decent men that it will take centuries to remove the stigma. It is difficult to see how that policy can possibly be approved by the man in the street. It would literally be a betrayal of the millions who by their clamour voiced a denunciation of the Hoare-Laval proposals with such unexpected strength. It now appears to us to be patently obvious that the Government is riding for a tremendous fall if it persists in its declared policy of lifting sanctions and "truckling under" to force of circumstances. Throughout this sorry business it has been a malicious pleasure for enemies of the country to insist that the attitude of Britain at all material times was actuated by selfish and the narrowest motives of self-sufficiency and gain. The firm stand taken by Mr. Anthony Eden, both when he was Minister for League Affairs and latterly when he was appointed Foreign Secretary, patently belied the innuendo—or so it seemed to those of us who honestly believed that Britain meant what she said. In fact, one of the most inspiring things about the whole business was the apparently honest leadership of Britain in the collective attempt to stop Mussolini's mad campaign of slaughter.

It now appears to be evident that the apparent calumniators have been right all the time. How else to explain this sudden change of face? The argument that it is forced upon the Government as a sort of writing-off of a bad debt simply will not do. No one can help but admit that the League has failed in its elementary duty of protecting one of its members against unprovoked aggression, which has been unequivocally denounced. To sit back now and calmly permit the aggressor to derive what benefits he can from his aggression is the very worst sort of defeatist and despicable policy. To call it a "Great Betrayal" is not in a slightest degree an exaggeration. It is a betrayal—and a lot more. It is a scandalous and utterly contemptible piece of moral cowardice. We know all about the threat of extensive trouble which would follow retention of the only honest course of continuing sanctions. But since when has Britain turned tail and fled, abandoning all her principles of honour and integrity, at the threat of danger? Since when has she suddenly been prepared to abandon her great role of moral leadership to knuckle down like a slinking cur before a hint,

## EXPLANATION OF TO-DAY'S CARTOON

### The Most Contemptible Traitor

DR. Edward Bancroft (1744-1821) of Westfield, Mass. educated as a physician in England, was the meanest traitor in all American history. He insinuated himself into Benjamin Franklin's confidence and was by the latter installed in a confidential capacity with Silas Deane, American Commissioner in France while ostensibly serving as a spy in England for Deane, he was at the same time betraying all the American secrets to the British Intelligence Service, for which he received from \$2,000 to \$10,000 a year from the enemy of his country. He kept Great Britain informed of every shipment of arms, supplies and troops to his native country. His activities endangered the American cause and materially prolonged the Revolutionary War. The French Government complained that everything it did was known to the British Ambassador. The double spy then did not hesitate to accuse others of the machinations of which he alone was guilty.

The only charge on the Treasury in connection with the office is the upkeep of Walmer Castle, which Lord Willingdon will have as his official residence.

His only "perks" are the rights of "flotsam, jetsam and lagan" within the area of the Cinque Ports.

Even these rights are not quite so extensive as one might imagine, since whales and dolphins cast ashore belong to the King as "royal fish."

"Flotsam, jetsam and lagan" mean respectively floating goods, goods cast ashore and goods on the sea bed.

Lord Willingdon's career has been very similar to that of the late Lord Reading, whom he succeeds.

They were contemporaries on the Liberal benches of the House of Commons for six years. Both were raised to the peerage during the last Liberal administration, Lord Willingdon in 1910 and Lord Reading in 1914.

Both have been elevated, rank by rank, four times in the peerage.

Both became Marquesses on relinquishing the Viceroyalty of India, and the Cinque Ports appointment followed in each case.

Lord Willingdon, like Lord Reading at the time of his appointment, is in his early 70s.

## ASTROLOGY—SCIENCE OR SWINDLE?

### "ILLEGITIMATE SISTER OF ASTRONOMY"

#### VENERABLE ANTIQUITY OF THE OLDEST OF HUMAN ARTS

(By Benjamin Farrington)

A STROLOGY has been called the illegitimate sister of astronomy. It might be more accurate to call her the mother of astronomy—an invincible and disreputable old mother who has lived on to be the disgrace of her respectable daughter.

For astrology is one of the oldest of human arts, and, in view of its venerable antiquity, it is not remarkable that it can claim from time to time a numerous if nondescript following of people who think there may be something in it.

Popular newspapers would hardly feature astrological calendars unless there were readers who consulted them. There must be people who want to know that "the aspects of Venus to-day may produce strange love adventures," or that "the day's lucky number is eight." And it used to be said in a certain big modern city that the professional astrologers were never so busy as when the share-market was lively. For if the planet Venus presides over love, there is another planet, Mercury, who, according to age-old belief, presides over business and swindling.

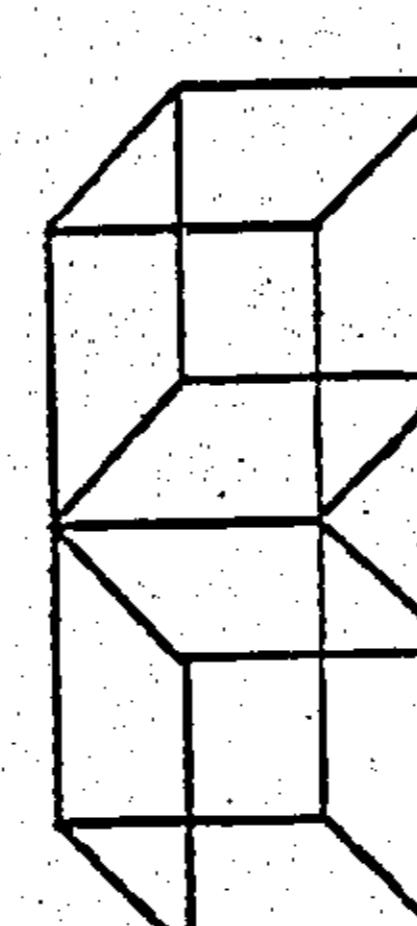

The claims of astrology in ancient days may be briefly explained thus. Primitive man all over the world deifies nature in various aspects and believes in a sympathy between himself and nature.

Among the Babylonians, who created the science of astrology, the stars, including the sun, moon, and the planets, were regarded as the divinest element in the universe and a sympathy was supposed to exist between them and man. It was supposed that life on earth was controlled by events in heaven; and 3,000 years before Christ the practice of observing the behaviour of the heavenly bodies in order to anticipate thereby events on earth was instituted.

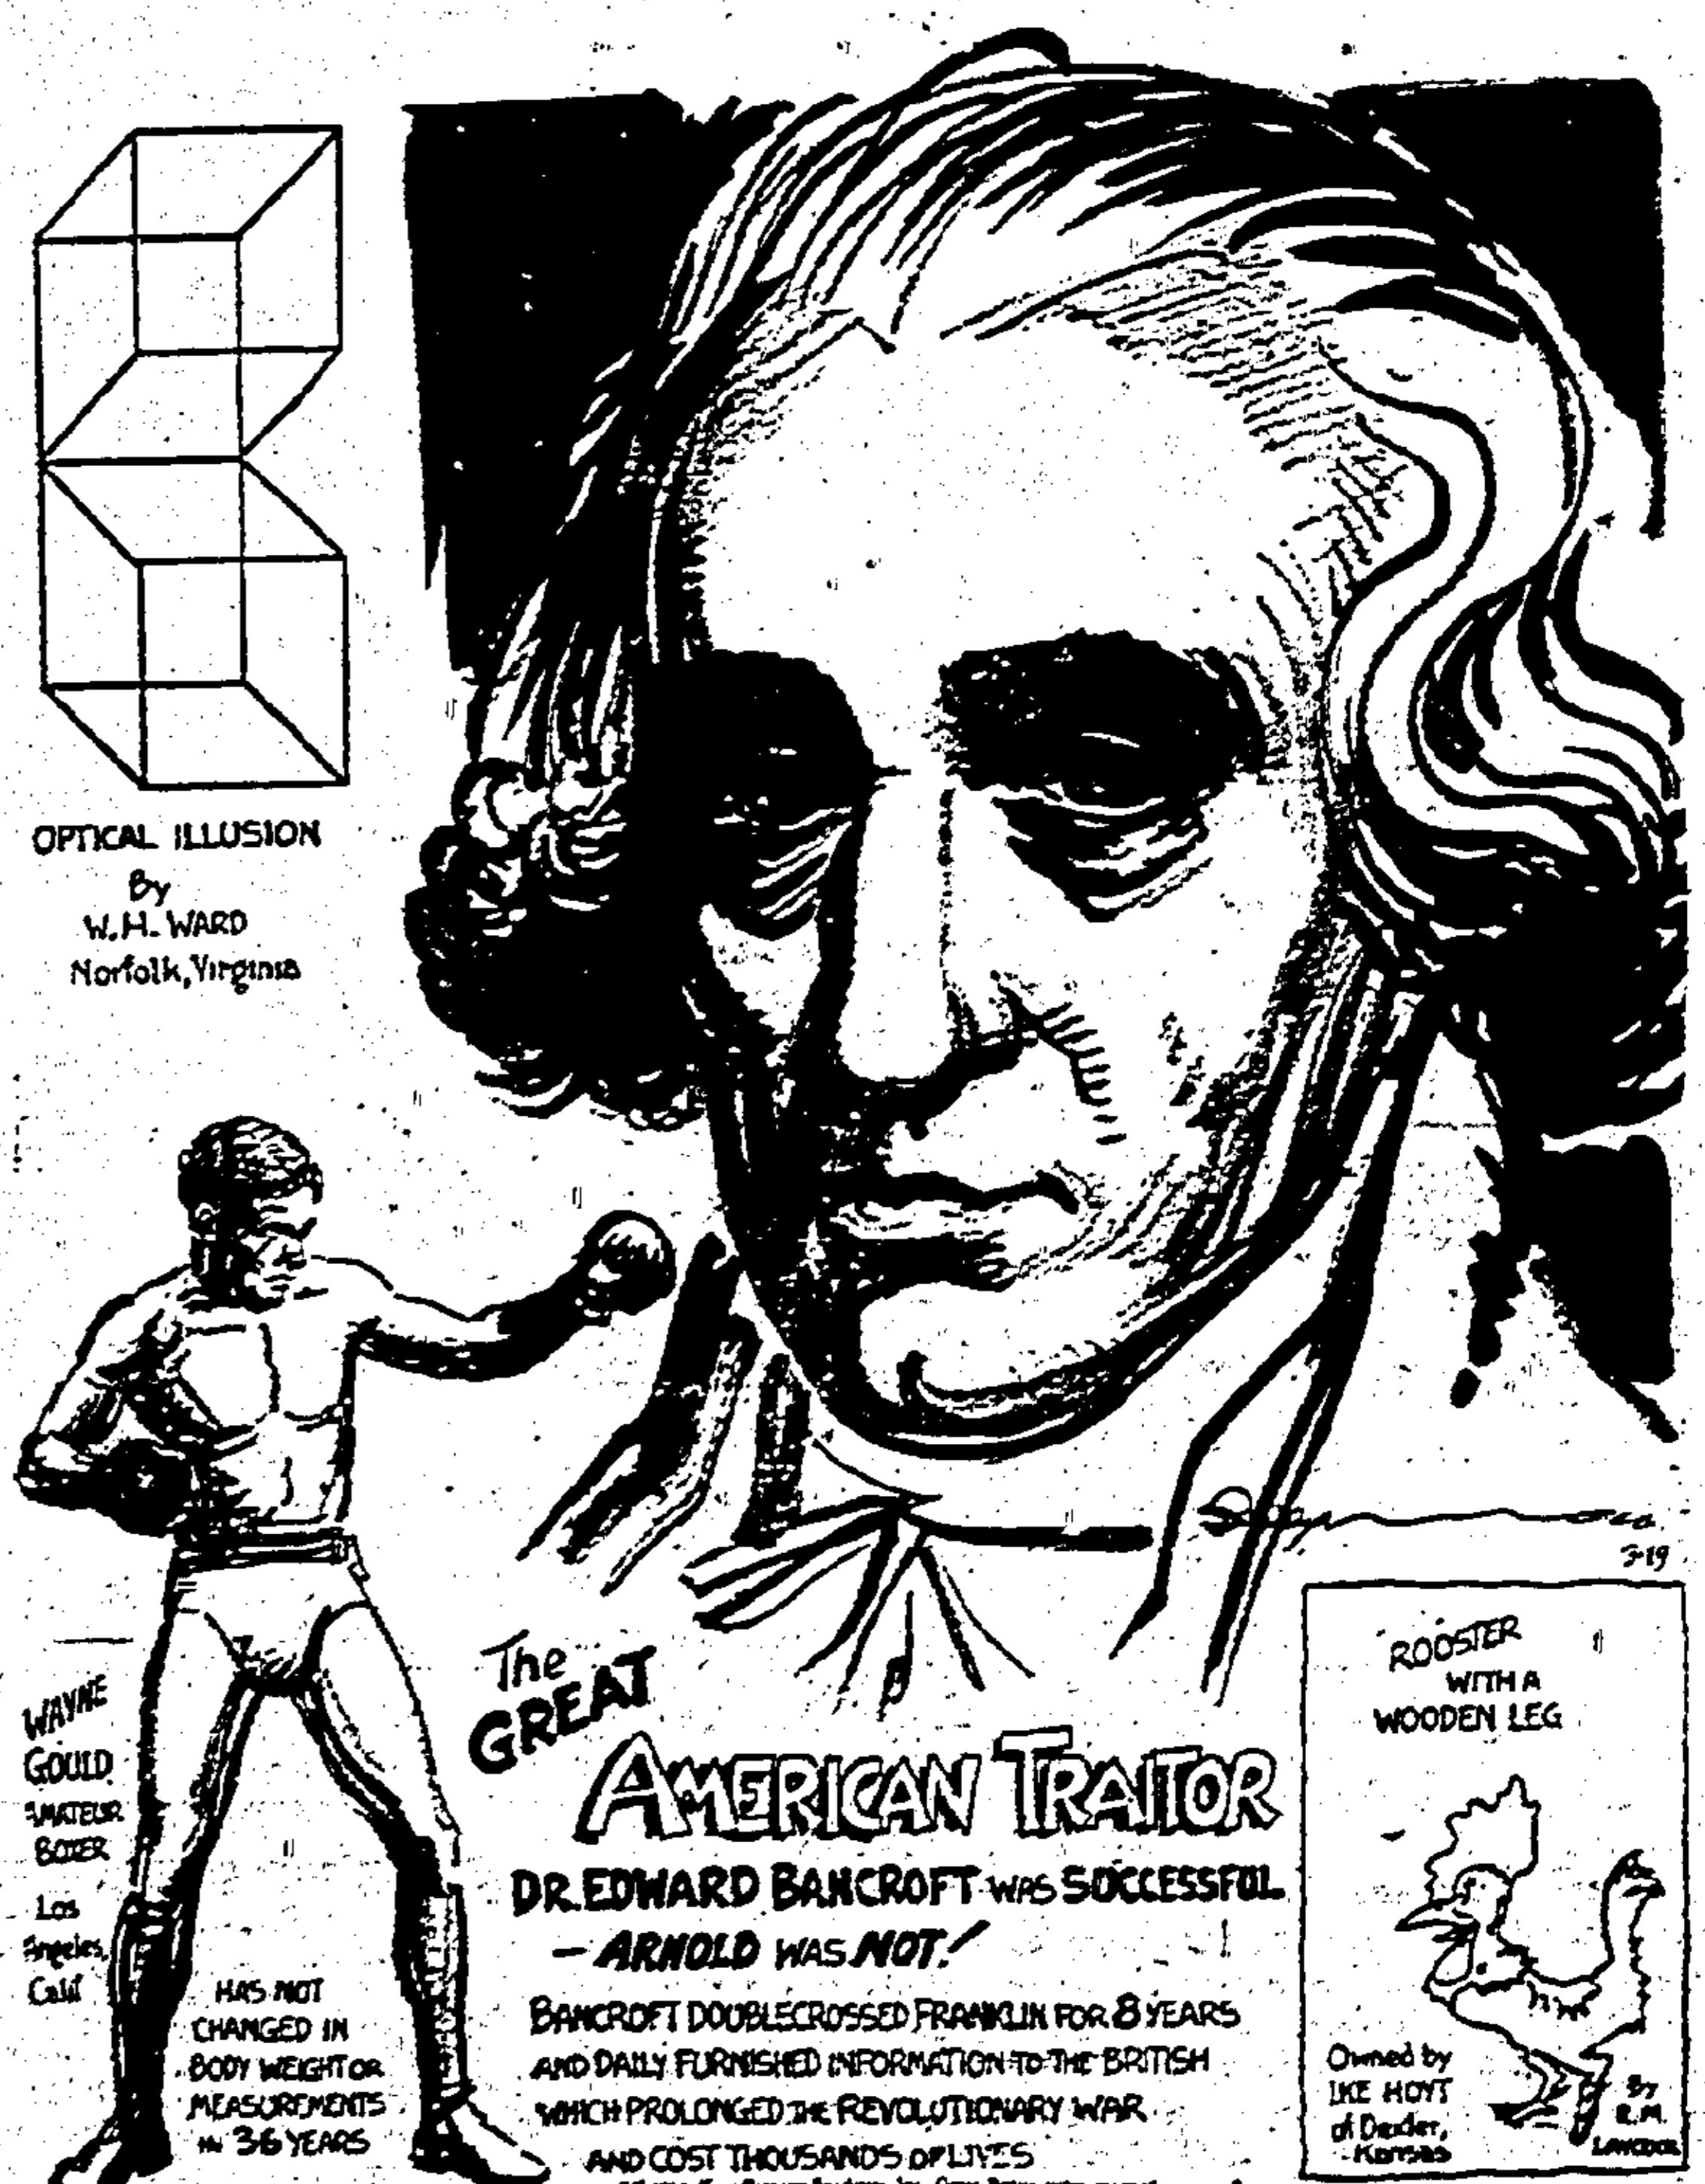

Experience has shown the limits of the useful application of this art. It is, of course, true that the whole cycle of life on our planet is conditioned by the relative positions of earth and sun, that the moon affects our tides, and that an accurate knowledge of the courses of the sun, moon, and planets, which we owe principally to the Babylonians, has turned the face of the sky into a great clock by which the activities of civilised

## A DAY AT LONDON'S AIRPORT

### CONSTANT FLOW OF TRAFFIC FROM DAWN TO DUSK

With summer timetables now in operation, more than 60 aircraft, inward and outward-bound, fly in and out of the London airport, Croydon, daily. These include newspaper carriers, cargo-craft, specially-chartered planes, air-liners to and from the Continent, services to and from destinations throughout the Empire, and fast air expresses of the British internal air routes.

In the early hours of the morning the aircraft which carry newspapers to the continent are taking on board their loads and vanishing over the hills on their way to the coast. An early arrival at Croydon is a big German mail and freight plane operating on the night service from Berlin. After this there are the departures of early-morning passenger-planes for the Continent. A Dutch service leaves for Amsterdam. A big machine departs for Cologne. A French air-liner ascends for Paris. Other services are signalled out to Brussels and Lille. The traffic of the airway operates with the precision one is accustomed to at a big London railway terminus. As soon as one aircraft leaves the departure platform, another takes its place.

#### Inland Airways

Here, now, is one of the fast express of the British inland airways, bound from London up to Glasgow. Then come machines outward-bound for Paris, Zurich, Rotterdam and Budapest. By the Imperial Airways express services one can now reach Budapest for Brindisi in a day's flying.

Passengers outward-bound across the Empire mingle with those who are about to make trips over the Continent. After flying from London across the Channel in one of the big 4-engined airliners, long-distance travellers cross the Mediterranean by flying-boat to Egypt, and then continue on to destinations in Africa, India, Malaya or Australia. Among the scheduled departures are expresses for destinations in Scandinavia as well as in other parts of Europe; while every now and then a specially-chartered plane will leave on an urgent flight.

So the day wears on—big motor-coaches arriving with fresh parties of passengers, and small vans dashing up with bags of letters to be air-borne throughout Europe or for thousand of miles across this Empire.

#### NEW SPEEDOMETER

A new device weighing only 12 pounds employs the inertia of a pendulum in recording accurately the true land speed of a plane while it is in flight.

#### APPROACH OF ENEMY MACHINES

Recent aviation patents include a device which is claimed will detect the approach of enemy aeroplanes.

#### U.S. MILITARY PLANES

The average value of U.S. military planes built last year was \$20,221.

## STRIKING PROPHECY IN REPORT

### ESSEX COUNTY PLANS FOR FUTURE

#### FAIRLOP PLAIN AS MAJOR TERMINAL

Air taxis to take to the centre of London passengers who have arrived at London airports, are forecast in a report prepared for the Essex County Council on "Air Planning in Essex," and published by the Council at 10s. 6d.

The report, by Messrs. Norman and Dawburn, presents a striking picture of the near future—the county studded with aerodromes of different classes, air ports, flying zones, and radio stations.

"There is little doubt," it says, "that in later years a type of air vehicle will be devised probably with moving wings, capable of carrying passengers into the centre of London. Such craft will, no doubt, be largely used as taxis to reach the main airports where it will not be difficult to set aside areas where they may land and take off. The possibility must not be ignored in the case of marine airports."

It is thought probable that, in country districts, such air-moving wing aircraft, as typified, might be expected to land by the autogiro, will become capable of landing actually inside the houses of their owners. The need would always exist, however, for aerodromes accommodated in small landing stations, garages, sales depots, and instructional establishments.

Pilots, but it might lead to an enormous development of short distance flying.

#### RADIO WEATHER SERVICE

#### Project For East African Coast

Experts of the Air Ministry and the Marconi Company have been visiting Mombasa recently, discussing with officials the site for a powerful wireless station.

This is to be installed in preparation for the commencement next year of the Imperial Airways flying-boat route down the East Africa coast.

In addition to the wireless station, which will have directional and position-finding apparatus working on medium and short wave-lengths, Mombasa is to have a meteorological bureau which

will gather data as to upper-air wind strengths and other data of importance from a flying point of view. The Air Ministry and Marconi experts are also visiting Dar-es-Salaam, with a view to providing similar facilities.

#### NEW AIR BUREAU AT ZURICH

#### Special Teleprinter In Operation

A new and luxurious air terminal and waiting-room have just been opened by the Swissair Company at Zurich.

At the opening ceremony Mr. Mittelholzer described the efforts

Switzerland has been making to assist the development of international air traffic. The results, he said, have been extremely encouraging, particularly on the service between Zurich and London. The new Zurich office is a central organisation for booking seats.

A teleprinter has been installed to avoid any possibility of errors in telephone messages. This teleprinter is in touch with all airports in Switzerland. It is also connected by special devices to all stations in Europe possessing similar instruments.

#### ALL-WOOD "FLIVVER"

An all-wood "flier" plane weighing only 500 pounds made a successful test flight in New Hampshire.

## Baby Brown Loves Flying

Among the arrivals at Croydon from Australia the other day was "Baby" Edward Brown, the 20 months old son of Dr. and Mrs. E. E. Brown.

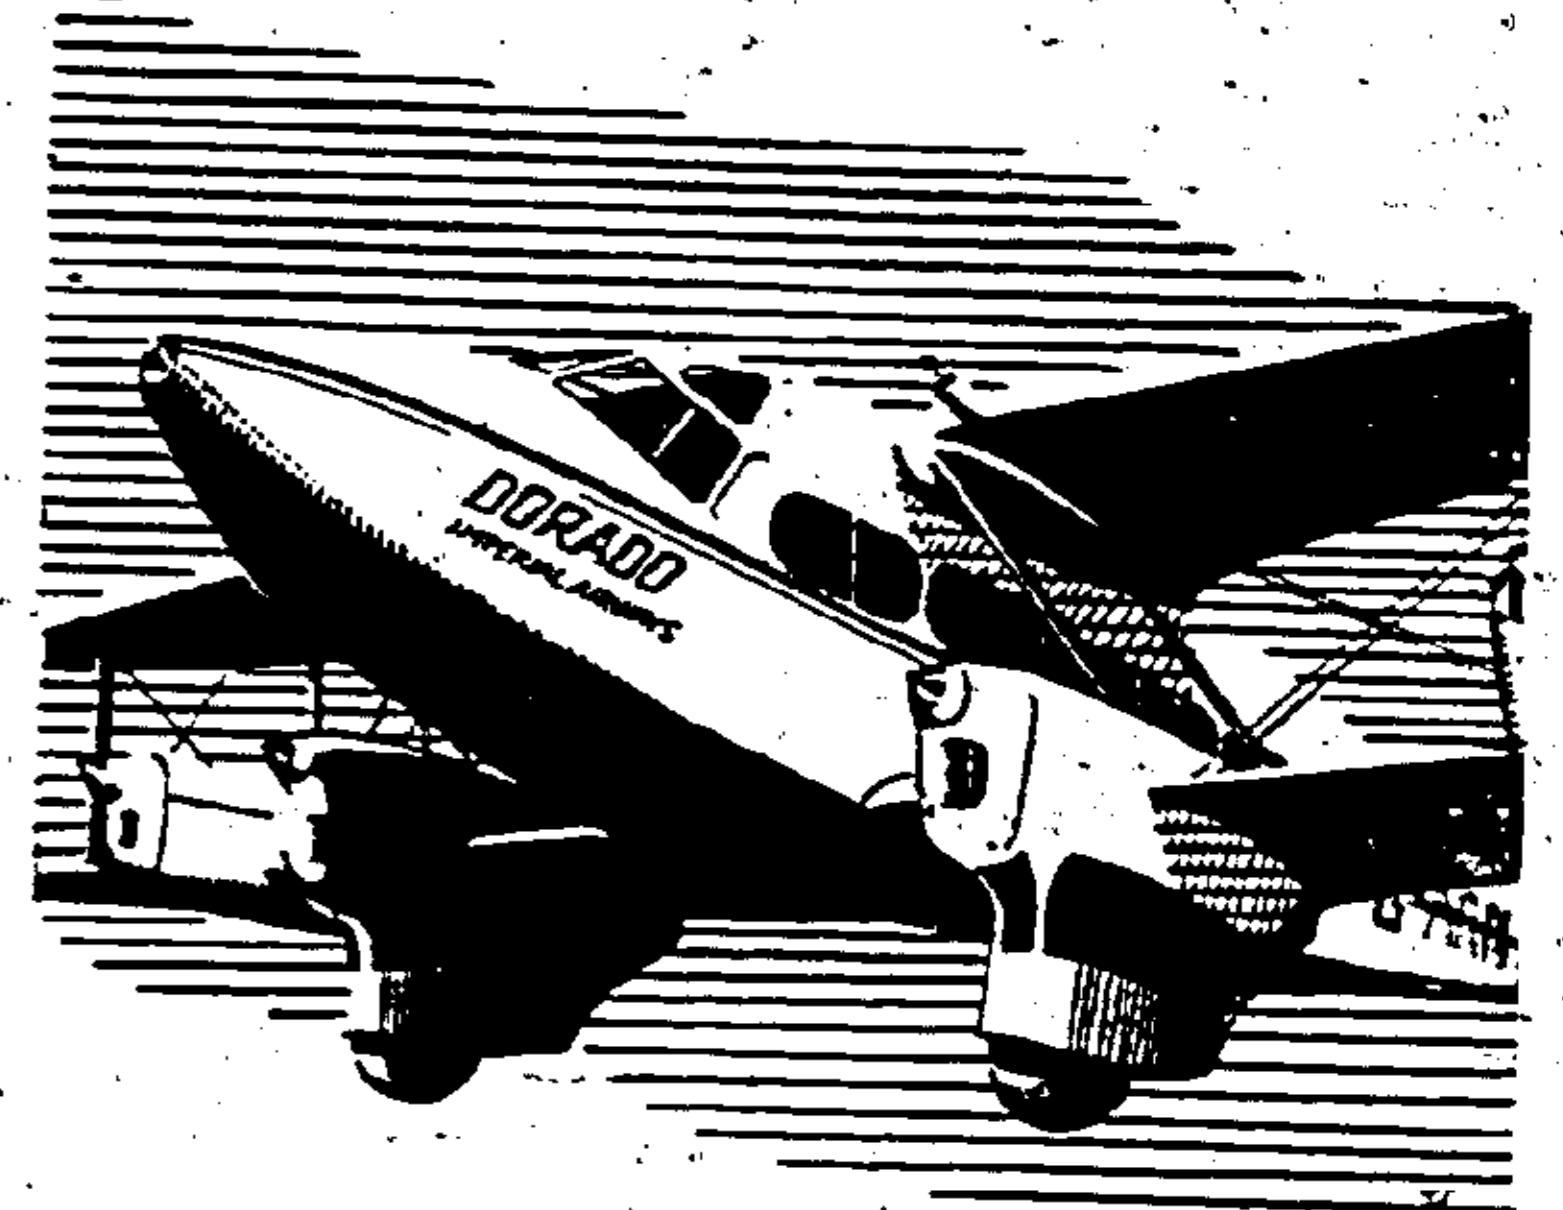

This infant is the youngest passenger so far to fly over the 12,000 miles' route from Brisbane to London.

Baby Brown made a first aeroplane flight at the age of six months. "He loves flying," says his father.

Baby Brown will cross the Atlantic by steamer to New York. Then he will fly with his parents to San Francisco, returning to Australia by the trans-Pacific sea route.

Duncan — Wylie

**WEDDING OF GREAT LOCAL INTEREST**

A wedding of great local interest was solemnised yesterday afternoon at the Kowloon Union Church, where Miss Helen Walker Wylie, only daughter of Mr. B. Wylie, General Manager of the *South China Morning Post*, became the bride of Mr. James Herbert Swan Duncan, thus uniting two well-known Scottish families who have for many years been resident in Hong Kong. The bride has been a member of the staff of the *S. C. M. Post* for the past three years.

The bridegroom, a member of the staff of the Indo-China Steam Navigation Company, Ltd., is the youngest son of Mr. George Duncan, M.B.E., formerly of the Hong Kong and Whampoa Dock Company, and Mrs. Duncan, who are now residing at "The Nest," Portcable, Dumbartonshire, Scotland.

**The Gowns**

A fashionable white lace gown featuring a flower petal collar stitched to stand up, full sleeves shirred in peasant fashion and a shirred Empire waistline, was worn by the bride. An unusual white lace shirred bandeau, worn at an angle, held in place a long, silk-embroidered, tulle veil sent from Edinburgh for the ceremony. The bride's little orange blossom and white heather posy, trimmed with frayed lace, was tied with Gunn tartan ribbon. She was given away in marriage by her father.

Miss Isobel Holland, as bridesmaid, wore a slim-fitting pink lace and net dress, set off with a stiffened pink lace hat. Her bouquet was of pink and white gladioli.

The flower-girl, little Peggy Duncan, the bridegroom's niece, was dressed in a short, frilly, pink net dress and carried a posy of pink and white gladioli.

The bride's mother chose a smart, ankle-length gray lace afternoon dress with matching coatee and cherry red hat. She carried red gadioli.

The dresses were by Mme. D'Obry.

**The Ceremony**

The bridegroom was attended by his brother, Mr. Andrew Duncan. Mrs. Frank Short was at the organ.

During the ceremony, which was conducted by the Rev. J. D. MacLean, the congregation joined in singing "O God of Bethel," and "O Perfect Love."

A reception was held in the Rose Room of the Peninsula Hotel, where the bride's father and mother received the guests.

Mr. Alfred Hicks, Editor of the *Hong Kong Telegraph*, proposed the health of the bride and bridegroom. Later, the newly-wed couple left for the honeymoon at Repulse Bay. On leaving, Mrs. Duncan wore a navy and white sailor-style dress under a three-quarter-length coatee, together with a small navy-and-white straw hat and white accessories.

**GEN. VOELTER IN COLONY****Returning Visit Of Chinese Friends**

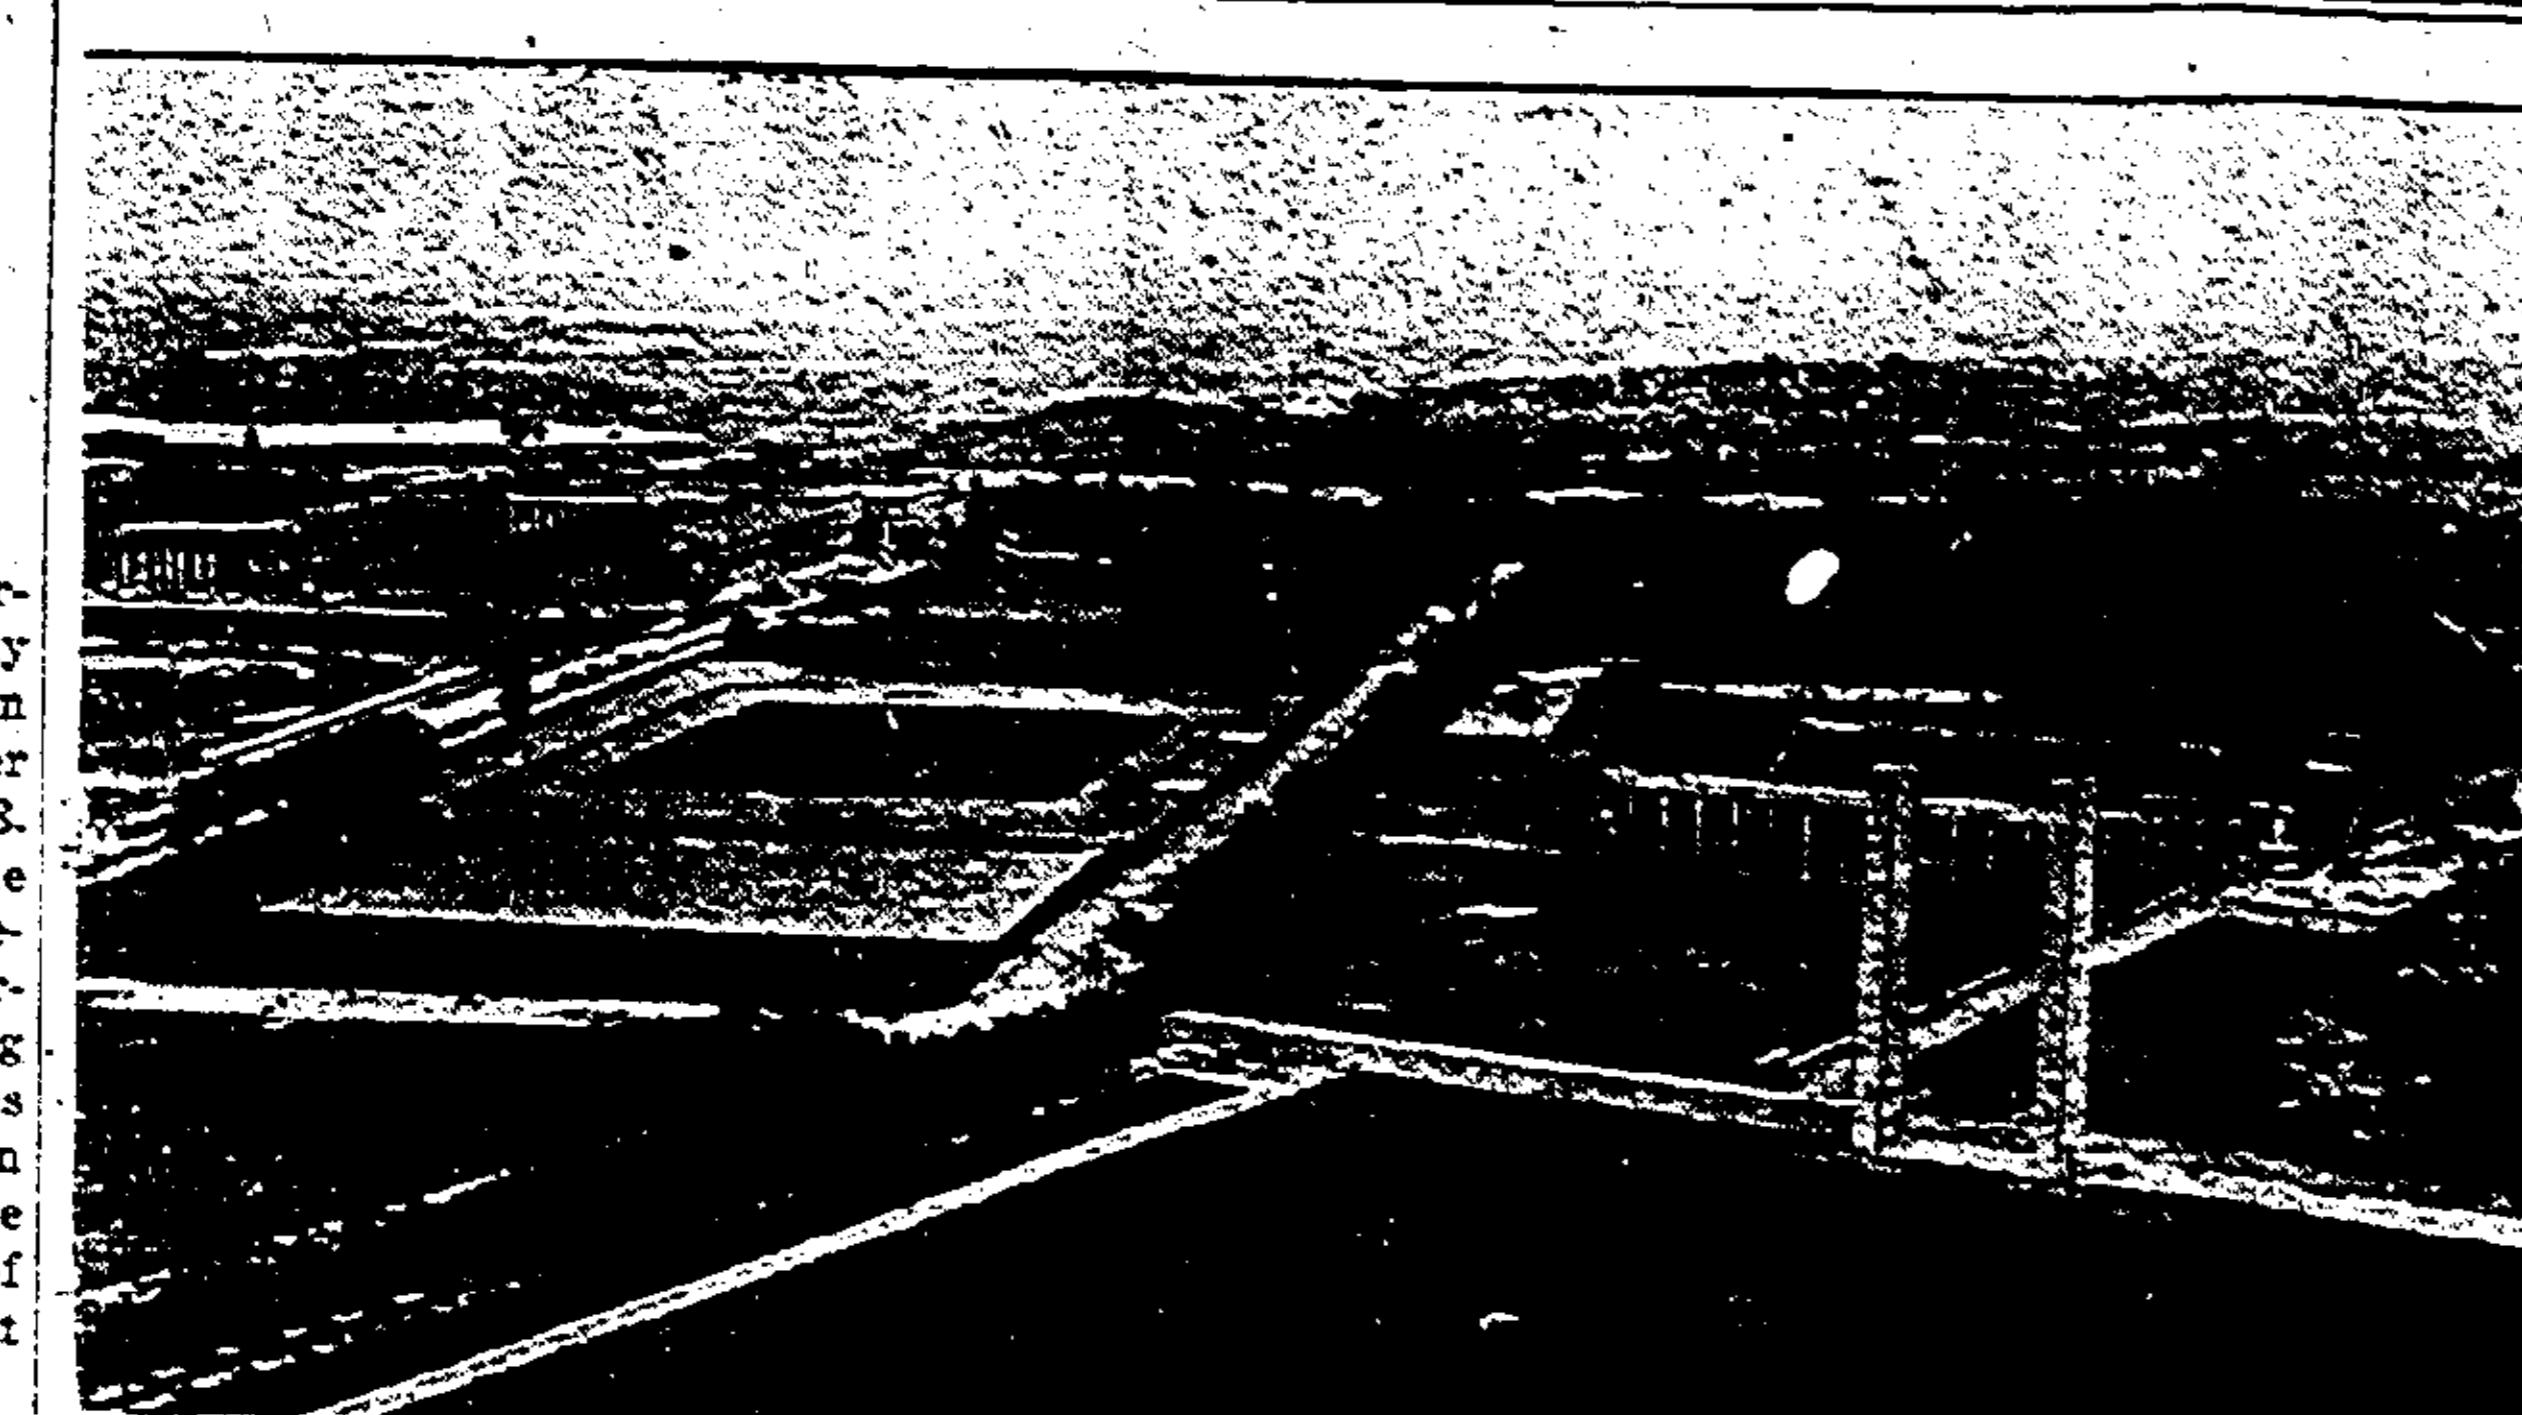

Among the passengers passing through the Colony bound for Shanghai by the s.s. *Conte Verde* is General Walter Reichenau, of the German Army, and Captain Helmut Voelter and Captain Friedrich Busse, who are accompanying the General.

Interviewed on board, General Reichenau stated that he was returning the visit of some Chinese friends paid to Berlin some time ago, but would not say if his visit North was in an advisory capacity or not.

He stated that as he was on leave at the moment, he had taken advantage of the opportunity of returning the visit.

**CHRISTIAN SCIENCE LESSON SERMON****Atomic Force In The Universe****FIRST CHURCH OF CHRIST SCIENTIST, HONG KONG**

The subject of the lesson Sermon in all churches of Christ, Scientist, to-morrow, June 21, will be: "Is the Universe, including man, evolved by Atomic Force?"

The Golden Text will be: "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens." (Proverbs 3:19).

Among others, the following citations from the Bible will be read: "And I saw a new heaven and new earth: for the first heaven and the first earth were passed away; and there was no more sea."

"And I heard a great voice out of heaven saying, Behold, the tabernacle of God is with men, and he will dwell with them, and they shall be his people, and God himself shall be with them, and be their God. And he that sat upon the throne said, Behold, I make all things new. And he said unto me, Write: for these words are true and faithful. And he said unto me, it is done. I am Alpha and Omega, the beginning and the end." (Rev. 21: 1, 3, 5, 6).

**Stages Of Consciousness**

The Lesson Sermon will also include the following passages from the Christian Science textbook, "Science and Health, with Key to the Scripture," by Mary Baker Eddy:

"In the Apocalypse it is written: 'And I saw a new heaven and a new earth: for the first heaven and the first earth were passed away; and there was no more sea.' In St. John's vision, heaven and earth stand for spiritual ideas, and the sea, as a symbol of tempest-tossed human concepts advancing and receding, is represented as having passed away."

"Were this new heaven and new earth terrestrial or celestial, material or spiritual? They could not be the former, for the human sense of space is unable to grasp such a view. The Revelator was on our plane of existence, while yet beholding what the eye cannot see — that which is invisible, to the uninspired thought. This testimony of Holy Writ sustains the fact in Science, that the heavens and earth to one human consciousness, that consciousness which God bestows, are spiritual, while to another, the unilluminated human mind, the vision is material."

A spokesman of the Japanese Consulate-General in Sharmeen denied this morning that all the senior officials of the Consulate were ill, as incorrectly reported by a news agency, report.

The agency man called at the Consulate when the senior officials happened to be very busy.

It is understood that the protest is more or less diplomatic, as Japanese Consular officials are bound to protest against any anti-Japanese movement.

Japanese nationals in Canton go about their business as usual, and untoward incidents are not believed likely for the time being.

The question whether Japanese merchants are liable to pay special tax has not been settled, and no attempt is made to force the issue.

Two cases of diphtheria and three of enteric fever were reported to the local Health authorities in the 24 hours ended on Thursday.

**LOCAL NEWS BREVITIES****DEAD WOMAN IN HUT****Man's Alleged Answer To Murder Charge**

Wallace Jenden, aged 58, a leatherman of Stubbs Mead allotments, Wandle Park, was at Croydon last month remanded for eight days charged with the murder of Alice Whyte, of Cuthbert Road, Croydon.

Det.-Insp. Widdicks stated that the woman's body was found in a hut at Stubbs Mead allotments. When he told Jenden he would be charged with murder by cutting her throat he replied, "No, not that way."

When charged he said, "A nice birthday to-day. That is not her name. Can I have paper and pen?" Later he said, "All I can say is I know nothing about it. I cannot understand it."

**MORE PROTESTS IN CANTON****Consul Deals With Military Chiefs****MUNICIPAL GOVERNMENT IGNORED**

*From Our Own Correspondent*

Canton, Yesterday. Another protest against the anti-Japanese movement in South China will be lodged this afternoon or to-morrow by Mr. Tatsuo Kawai, Japanese Consul-General, to the military authorities here.

Consul-General Kawai created a new precedent by protesting to General Chen Chi-tong, Commander-in-Chief of the First Group Anti-Japanese National Salvation Army, when as a rule a Consul communicates with the Canton Municipal Government. Mr. Kawai

is as a rule a Consul communicating with the Canton Municipal Government. Mr. Kawai believes that it is more effective to deal direct with the military authorities.

A spokesman of the Japanese Consulate-General in Sharmeen

denied this morning that all the senior officials of the Consulate were ill, as incorrectly reported by a news agency, report.

The agency man called at the Consulate when the senior officials happened to be very busy.

It is understood that the protest is more or less diplomatic, as Japanese Consular officials are bound to protest against any anti-Japanese movement.

Japanese nationals in Canton go about their business as usual, and untoward incidents are not believed likely for the time being.

The question whether Japanese merchants are liable to pay special tax has not been settled, and no attempt is made to force the issue.

Two cases of diphtheria and three of enteric fever were reported to the local Health authorities in the 24 hours ended on Thursday.

(Continued from Previous Col.)

The body was removed to the Victoria Mortuary on the arrival of the steamer yesterday.

The late Mr. Manners was

formerly in the Royal Navy,

and served in the Great War.

The cause of his death is not

as yet known.

At Southampton, Leicester took Glamorgan: 284 (Smart 121, Dai

Davies 100; Pollard 7 for 57) and

48 for 0.

Lancashire: 225.

At Northampton, Middlesex took

first innings points from Northants.

Northants: 298 (Bakewell 144) and

141 for 8.

Middlesex: 464 (Hendren 145, Comp-

ton 100, not out).

At Westcliff, Yorkshire beat Essex

by 137 runs.

Yorkshire: 125 (Nichols 5 for 41)

and 327.

Essex: 188 (Verity 6 for 52) and 127

(Verity 9 for 48).

At Gloucester, Worcester beat

Gloscester by eight wickets.

Gloucester: 88 (Parke 3 for 43) and

182 (Jackson 5 for 49).

Worcester: 237 and 24 for 2.

At Lord's, All-India beat the Minor

Counties by an innings and 74 runs.

Minor Counties: 236 (Amar Singh 4

for 32) and 42 (Amar Singh 5

for 12, Nissar 5 for 24).

All-India: 402 (Minhas Ali 135,

Merchant 26).

At Cardiff, Glamorgan beat Lan-

cashire on the first innings.

**LORD ALLEN AND LABOUR****Disagreement Over League Of Nations****"EVERY SUPPORT" FOR MR. EDEN**

Lord Allen of Hurtwood has decided to resign from Mr. Ramsay MacDonald's National Labour Group owing to "complete disagreement" over League policy.

This division, which was made known in correspondence that has passed between him and the National Labour Committee, is the result of an article which appeared in the *News-Letter*, the group's organ.

Lord Allen, in a letter dated May 12, wrote:

"I find myself in such complete disagreement with the attitude of the National Labour Group towards the League of Nations that I should prefer my membership to lapse."

"The eve of Mr. Eden's departure for the council meeting at Geneva is surely the worst possible occasion for saying: Let us admit that Italy has smashed the Covenant." (A reference to editorial comment which appears in the current issue of the *News-Letter*.) The lesson of the recent tragedy is not that we should make any admission, or weaken in our loyalty to the existing Covenant. Quite the contrary.

**Statesmen's Failure**

"This humiliation has not been brought upon us by defects in the League Covenant, though undoubtedly improvements could be devised. It has resulted from the failure of statesmen to take action at the right moment and to protect international law under the Covenant with the same precision and will-power that we display when our own national interests are at stake. Indeed, we can no longer divorce the safety of Britain from the defence of international law."

"The opportunity to prevent the present avoidable disaster was, I fear, let slip when National Labour and National Liberalism were in the ascendancy in the conduct of foreign affairs, and I have never disowned this opinion."

**Fidelity Important**

"As for the future, it is not merely in Abyssinia but every bit as much in Europe that fidelity to the League Covenant will be of paramount importance. It seems to me that every support should be given to Mr. Eden and the Government in their present effort to reconcile Germany and France so that at long last the peace of Europe may be founded upon equality and protected by collective security, as was intended by the Covenant."

Earl de la Warr, chairman of the National Labour Committee, in his reply stated:

"As realists we have to recognise that the Covenant needs revision in the light of experience. This does not mean that we can no longer support the League. On the contrary, it means that we care for it sufficiently to be determined that its machinery shall be such as will work."

**Home Cricket Score Board**

At Southampton, Leicester took Glamorgan: 284 (Smart 121, Dai Davies 100; Pollard 7 for 57) and 48 for 0.

Lancashire: 225.

At Horsham, the game between Sussex and Surrey was abandoned as a draw on account of rain.

Surrey: 380 for 7 dec. (Gregory 166,

Bartling 110).

Sussex: 174 for 7.

At Tonbridge, Notts beat Kent by 56 runs.

Notts: 78 (Todd 6 for 28) and 225

(Todd 5 for 38).

Kent: 116 (Vose 7 for 40) and 131

(Larwood 6 for 34).

**TO-DAY'S MATCHES**

The following programme of week-

end matches will commence to-day:

Lord's—Minor Counties v All India.

Horsham—Sussex v Surrey.

Westcliff—Essex v Yorkshire.

Ikleton—Derbyshire v Somerset.

Tonbridge—Kent v Notts.

### BISHOP AS WITNESS FOR MOTORIST

#### "Amazed" At Charge

The Bishop of Middleton, the Right Rev. C. W. Wilson, gave evidence at Sale last month when Harry Ewart Holden of The Uplands, Winton-road, Bowdon, Cheshire, was charged with driving a car while under the influence of drink.

This charge was dismissed, Holden was fined £25 and his licence suspended for six months for dangerous driving.

The Bishop said that he had known Holden for 3½ years and had found him a man of strictly temperate habits. He was amazed to hear of the charge against him.

Holden, who pleaded not guilty, said that he had been to Buntingford and dinner. He had only had a glass of sherry, a glass and a half of champagne and less than two glasses of port.

## for STAMP COLLECTORS

By A. E. L.

THE announcement that a new denomination of 1½d. is to be added to the list of Union postage stamps does not cause surprise, having regard to the statements which have been made to the effect that from next year it is intended that all overseas letters are to be carried by air mail, the charge per unit of weight being 1½d.

Designs for the new stamps have been called for from South African artists, so that details of the chosen design are likely to be given within the next few months. The step to be taken whereby all mail matter will be carried by air, is an episode in the postal history of the world, no less important than the introduction of the adhesive postage stamp by Rowland Hill nearly 100 years ago.

The trial of John Fiorenza, an upholsterer's apprentice, who is 24 for the murder of Mrs. Nancy Evans Titterton, wife of an Englishman, was resumed here last month. Mrs. Titterton's body was found in the bath of her flat on April 10.

The prisoner's counsel, Mr. Klauber, in his opening statement, said that Fiorenza, owing to the deterioration of mind and brain, had admitted a crime of which he was innocent.

In his alleged confession Fiorenza admitted going to Mrs. Titterton's flat, gaining admission by a trick and murdering her. According to the police, Fiorenza had bound Mrs. Titterton's hands with twine, and although he cut it before leaving, one piece was found under the body and provided a clue which led to his arrest.

Goods Not Ordered In answer to Mr. C. M. Melville, prosecuting, Mrs. Fletcher said that she never ordered goods to the extent of over £1 from local tradesmen, neither did she agree to provide the house with food.

Miss Virginia Margaret Kemble, of Hursbourne Tarrant, near Andover, Hants, a country produce dealer, said that Halliday ordered goods from her and asked for a monthly account in Mrs. Fletcher's name. He said that Mrs. Fletcher was a daughter of Lord Finlay. During conversation Halliday told her he was a big financier.

Goods valued £2 10s. d. were ordered by Halliday, but only 10s. d. had been paid.

Answering Mr. Eastwood, Miss Kemble said that it was Halliday who mentioned the name of Lord Finlay. She had not heard of Finlay, the tobacconist, and the word "tobacconist" was not mentioned.

The hearing was adjourned.

## CHANNEL BUOYS

WHAT would modern navigation do without the channel buoys — those floating markers that keep ships off the shoals? In a very real sense, the advertisements in this paper are channel buoys, placed for your protection — for the safeguarding of the family expenditures.

These advertisements are the signed statements of reputable firms who seek your patronage on the single basis of giving value for every dollar spent. They are honest statements, the only kind an advertiser can use and remain an advertiser.

People who get the most for their dollar in the market-places are those who keep an eye on the channel buoys. Day by day, they follow the advertisements to learn what and where to buy to the best advantage. Make this a habit. Study the advertisements, in the interest of shrewd buying.

The advertisers in this paper have charted the channels of buying for you. Keep to the course.

## MAXIM GORKI CREMATED

State Funeral At  
The Kremlin

CHINA MAIL SPECIAL  
Moscow, To-day.  
The mortal remains of the famous Russian writer Maxim Gorki, who died here on Thursday, were cremated in Moscow Crematory yesterday. The urn containing Gorki's ashes will be interred in the wall of the Kremlin at the Red Square today with an impressive ceremony, which will have the character of a State funeral. A monument will be erected at Nishi Novgorod, where the deceased author was born and which was renamed some years ago "Gorki." — Trans-Ocean Service.

## FRANCE TO DEFEND HER CURRENCY

(Continued from Page 1)

FEARS DISPelled  
Paris: The fears that the new French Government would pursue a vigorous devaluation policy and even introduce a capital levy were dispelled by the Finance Minister's eagerly awaited speech in the Chamber yesterday afternoon. M. Vincent Auriol, Minister of Finance, declared that the Government was determined to protect the currency at all costs and announced that very sharp measures would be taken against all who had smuggled large sums out of the country. These people, he said, were nothing better than traitors.

Referring to the Communist motion for a capital levy, the speaker said it was true that the Socialists themselves once had demanded a capital levy, but that had been in time of prosperity. To-day the levy would be the deathblow to the capital market, which was already in a sad state.

Declaring that the advocates of devaluation were merely actuated by selfish motives, the Finance Minister said that such a course would be dangerous to the interests of the nation unless other nations also adjusted their currency. Only one course was possible, and that was for the nation to save the currency itself.

CAPITAL SENT ABROAD  
The total capital which Frenchmen had sent abroad since January 1935 was estimated at 26,000,000,000, while the amount of hoarded banknotes was probably in the neighbourhood of 30,000,000 francs. Altogether, therefore, including the hoarded gold, the French economy was deprived of no less than 50,000,000,000 francs.

Anybody who did not report the sums he had abroad by July 15 Pomeroon got close up in a van, as she came up the Girl Pat would make a complete circle and head west, forcing the Pomeroon to make a wider circle and so lose ground in order to recover her chasing position.

The ding-dong race continued for 80 minutes, but at last the

would have to expect severe punishment, and eventually deprivation of his civil rights. Criticising next could not be seen from the secret and dubious financial beach, but it was perceived that methods pursued by the previous Governments, the speaker said that an end would be put to these

ruses and in future frank statements of the financial situation of the country would regularly be published.

NEW MEASURES

On the conclusion of his speech the Minister introduced new financial measures for the purpose of achieving the objects he had set forth, the chief of these being:

1. A bill increasing the severity of punishment for failing to reveal credits abroad, while granting tax amnesty.

2. A bill empowering the Finance Minister to take sharp measures against persons attempting to damage the national credit.

3. A bill enabling the Government to issue decrees with the object of securing adequate representation of all national economic interests in the Banque de France.

4. A bill empowering the Government to reorganise public finance, with the object of making it simpler and more elastic. — Trans-Ocean Service.

## HARVARD BEAT YALE

Annual Boat Race  
At New London

New London, Conn. To-day.

Harvard beat Yale by four lengths in the annual boat race here yesterday, clocking 20 minutes 19 seconds over the four-mile course. — Reuter.

This is Harvard's first success since 1933 for Yale beat them in the following year to break their sequence of wins over three years in succession.

Yale won again in 1935, when they took 20 mins. 19

secs. over the course as against

21 mins. 04 secs. recorded by Har-

vard.

The first race was held on June 30, 1876 when Yale was success-

ful and since then they have won

34 times against Harvard's 23, in-

cluding their latest success.
